Forecast For West Midlands
Issued by Met Office Exeter
at 0400 on Monday 13 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy and mild with persistent drizzle and rain.

Today:
A rather damp and dull day with relatively persistent drizzle and rain from mid-morning onward, this turning heavier for northern areas in the afternoon while southern areas become somewhat drier. Staying very mild with a gentle breeze. Maximum temperature 13 deg C (55 deg F).

Tonight:
Rain easing through the evening but light outbreaks continuing overnight. A murky night under lowering cloud with widely misty conditions by dawn. Mild in the south but cooler further north. Minimum temperature 3 deg C (37 deg F).

Tuesday:
Mist and fog slow to clear on Tuesday morning. A cloudy day follows with occasional bright spells. Largely dry with light winds. Generally mild and very mild in the south. Maximum temperature 11 deg C (52 deg F).

Outlook for Wednesday to Friday:
Mild and largely cloudy throughout the week. Generally dry but the cloud thick enough to produce some patchy drizzle. Continued risk of morning fog developing under any cloud breaks.
